

# Palau Energy Storage New Energy Enterprise

When did Palau launch its first solar and battery energy storage system?

Palau on June 3 launched its first solar and battery energy storage system (BESS) project on Friday.

The project was made possible by renewable company A Iternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation.

How much does Palau solar project cost?

In a press release from the company, it said the Palau solar project boasts a capacity of 15.3 MW p solar PV and 12.9 MW h BESS, making it one of the most significant foreign direct investments in the country.

The project cost USD29 million, the venture marks a remarkable milestone for A Iternergy.

Who made Palau solar project possible?

The project was made possible by renewable company A Iternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation.

In a press release from the company, it said the Palau solar project boasts a capacity of 15.3 MW p solar PV and 12.9 MW h BESS, making it one of the most significant foreign direct investments in the country.

What is Palau's energy storage system?

energy storage system, was undertaken by Solar Pacific Pristine Power, a privately owned company.

The plant will provide approximately 20 per cent of Palau's power needs, delivering up to 23, 000 megawatt hours per year to the grid network, reducing Palau's reliance on expensive diesel generators.

Where is the largest solar-plus-storage project in the western Pacific?

Aerial view of the site.
