

How does 5G work in Latvia?

On board Latvian port service provider LVR Flote's Varma icebreaker ship, the LMT has deployed 5G connectivity that can be delivered as far as 53km from the base station.

Pilot boats and floating drones are all part of an intricate system to broadcast seabed measurements and remote video transmissions.

Will Latvia roll out 5G & 4G in 2021?

The operator said it now has everything in place to begin a nationwide rollout of 5G and upgrade of 4G in Latvia following the completion of the country's 700 MHz spectrum auction in December 2021.

It also holds frequencies in the 3.5 GHz band.

What is 5G territory in Riga?

The 5G Territory event in Riga was developed eight years ago to highlight this expertise and invite big names from the telecoms industry to use Latvia as a national testbed and a playground for technological innovation.

He adds the country already has shared its expertise and innovations with the likes of Ukraine and Moldova.

Will 5G help Latvia's border security?

Latvia has recently accused Belarus of letting illegal migrants cross into Latvia.

This is an instance where border security, police, and military need to collaborate.

Not all of these units would have access to the traditional military "green radio." However, 5G has the potential to simplify coordination and collaboration at the country's borders.

How does Latvia's telecom market benefit from 5G and fibre-based infrastructure?

Latvia's telecom market continues to benefit from investment and from regulatory measures aimed at developing 5G and fibre-based infrastructure.

There is effective competition in the mobile market, with extensive services based on LTE-A technologies to boost data speeds.

What is the smallest network in Latvia?

Bite is the smallest network in Latvia, but has good coverage and speeds in 3G on 900 MHz which is not so common worldwide.

In 2016 private equity firm Mid Europa Partners sold Bite to funds affiliated with Providence Equity Partners.

Bite's 4G/LTE covers already 90% of population in 2016.
